Petition Statement – Facebook Account Loss (2019)

To Whom It May Concern:

I, iAM of 185668232inc., am submitting this statement regarding the loss of my Facebook account in 2019. The removal of this account has had a direct and severe impact on my ability to earn income, engage with my community, and operate my 501(c)(3) nonprofit organization.

Since 2019, my Facebook presence was essential for:

- Connecting with clients and collaborators.
- Promoting nonprofit events, performances, and workshops.
- Maintaining public access to cultural and historical content created by our organization.

The suspension and loss of this account have resulted in substantial financial losses, interruption of community engagement, and an inability to continue sharing our work and mission effectively. I respectfully request consideration of this petition to document and acknowledge the impact of this loss.
